History

Presbyterian Medical Services (PMS) is the successor to the United Presbyterian Church's Medical Mission work in the Southwest, which began in 1901. In 1969, a New Mexico based 501(c)(3) nonprofit corporation was formed to ensure continuation of the mission to provide health care services to the underserved communities throughout the Southwest.

Services

Our services are as diverse as the communities we serve:

- Primary Care
- Dental
- Behavioral Health
- Childhood Education
- Home Care & Hospice
- Developmental Disabilities
- Residential Treatment Center
- Senior Services
- Veterans' Support
- Pharmacy & Laboratory

All told, we provide services in approximately 90 locations throughout New Mexico. Many of the individuals served by PMS live at or below the federal poverty level. PMS programs are in urban, rural and frontier locations. Some areas have geographical barriers which dramatically impact access to services.

Services that help communities thrive.

Our primary care services are focused on helping New Mexicans of all ages. Our dental care includes preventive, restorative and some rehabilitative services. Our behavioral health and developmental disability programs enhance lives and enable the pursuit of personal fulfillment. And our home care and hospice programs aspire to offer the highest quality of life at every stage of life. Combined with our services for Veterans and childhood education, PMS' services strengthen the fabric of our New Mexico communities by offering a strong safety net of care for people of all backgrounds.

Our purpose is you.

As our mission states, "Presbyterian Medical Services designs and delivers quality accessible integrated health, education, and human services in response to identified community needs of the multicultural people of the Southwest." Everyone is eligible to receive PMS primary care, dental and behavioral health services. We accept Medicaid, Medicare and private insurance. For the uninsured, a sliding fee scale is available based on income. Our health care guides provide on-site Medicaid or Health Insurance Marketplace enrollment assistance.

Driven to make communities healthier.

PMS is accredited by the Joint Commission, signifying achievement of the highest standard of performance in the industry. Numerous PMS community health centers have achieved recognition from the National Committee for Quality Assurance (NCQA) as Patient-Centered Medical Homes (PCMH). The PCMH is a way of organizing primary care that emphasizes care coordination and communication to transform primary care for maximized health outcomes. We've also received accreditation from the National Association for the Education of Young Children (NAEYC).
