

Elmore Medical Center (EMC) is located in the vibrant rural community of Mountain Home, ID located 39 miles southeast of Boise. The high desert climate is great for recreational boating, fishing and skiing outings at nearby CJ Strike Dam and Anderson Ranch Dam and for a wide range of other outdoor activities.

Elmore Medical Center Residency Rotation

Elmore Medical Center (EMC) offers a rural healthcare resident rotation opportunity that covers the full life span of patient care.

Residents will gain rural clinical experience working at Trinity Mountain Medical Clinic (TMMC), a primary care clinic and Emergency Department experience working in the hospital.

TMMC provides Residents a clinical experience that provides care to patients of all ages with a wide range of care needs including OB, labor and delivery. Residents will work closely with our Family Practice Physicians and have a full time Pediatrician and Gynecologist available for consults.

The clinic includes an on-site lab draw station and clinic treatment room for minor procedures.

The EMC Emergency Department is staffed 24 hours, providing care for 600-800 patient visits per month. Staff in the ED work closely with Elmore Ambulance Service which is operated by EMC in partnership with Elmore County. Resident rotations at EMC Emergency Department provide an opportunity to gain ambulance transport experience.

For more information contact vanghelb@slhs.org or call 208-580-9801
